

Tylö Sense

– the obvious choice for saunas.

Five good reasons to

ELEGANT DETAILS

All Tylö heaters are manufactured by sauna bathers for sauna bathers. This means that each heater has been carefully designed to deliver the ultimate sauna experience. The grille on Tylö's original heater is angled to ensure optimal distribution of hot air. The built-in water reservoir creates a more comfortable and gentler climate - exactly as it should be in a genuine Tylö sauna.

FAST HEATING THAT SAVES ENERGY

Tylö's original heaters all heat a sauna extremely quickly - up to twice as fast as any other heater. Tylö's unique, twin side air chambers provide enhanced hot air distribution (taking just 25 minutes to reach a normal sauna temperature of 80°C).

Moreover, with the patented divided output feature, Tylö heaters can realise energy savings of up to 30%, making them an energy-efficient choice. The divided output feature means that the sauna heater automatically switches to energy-saving mode when the temperature reaches the desired level and maintains it for the length of time you spend in the sauna.

All in all, this is a financially-sound, long-term investment if you are looking for fast and comfortable sauna heating.

SAFETY A HIGH PRIORITY

Overheat cut-outs, thermostats and temperature sensors are vital components that are selected with meticulous care to ensure maximum safety.

It is also assuring to know that Thermosafe™, Tylö's unique protective coating, prevents the exterior from becoming too hot to the touch.

choose a Tylö heater

EFFECTIVE WATER SPRINKLING

Unlike many other sauna heaters, Tylö's original heater has a deep, centrally-located stone compartment. This ensures that almost all the water sprinkled over the stones turns into steam.

MADE IN SWEDEN WITH A LONG WARRANTY

Tylö manufactures its sauna heaters completely in-house, without compromising quality. The heating elements, which are the heart of the heater, are manufactured in a closely-monitored process to ensure reliable performance and long life.

The choice of materials, such as a stainless steel stone compartment and aluminium top, reflects Tylö's high quality standards for all of its products. This is important and good for you, no matter how frequently or seldom you take a sauna.

Thanks to in-house production and scrupulous quality control the consumer can be assured that a Tylö heater is a reliable purchase.

MADE IN SWEDEN

Sense

– let your senses roam free

Sense is a brand new range of sauna heaters where elegant design marries Tylö's reliable performance and genuine quality. Sense lets all your senses roam free with its fast, comfortable heat, accurate temperature control and smart Eco features. All the heaters have a fibre-coated outer shell to minimise the risk of burns and a compartment for fragrant essences which can be removed for easy cleaning. The new design will add style and distinction to any sauna. Tylö recommends a mini sauna stone package (item no. 9014 1050) for a Sense heater. If installing the heater on the floor, you need to order legs (item no. 9000 1060).

Sense Combi

The Sense Combi crossover heater adds variation to your pleasure. Enjoy dry, wet and steam saunas with just one heater, which features a standby mode and divided output to maximise energy efficiency. The elegant h2 control panel is also included in its design. Choose an output of 6.6 kW or 8 kW and either a wall-mounted or floor-standing heater (legs are optional).

Sense Combi 6 kW (Item no. 6100 1016)
Sense Combi 8 kW (Item no. 6100 1010)

Sense Plus

With its brand new design, Sense Plus offers rapid and safe heat. The heater has a safety overheat cut-out and our patented, energy-saving "divided output" feature. Choose an output of 6.6 kW or 8 kW and either a wall-mounted or floor-standing heater (legs are optional). Sense Plus is designed for installation with a separate electronic control panel.

Choice of CC50, EC50 or h1.
Sense Plus 6 kW (Item no. 6100 1017)
Sense Plus 8 kW (Item no. 6100 1011)

Sense MPE

The same features and design as Sense Plus, but with the CC10 control panel included.

Sense MPE 6 kW (Item no. 6100 1030)
Sense MPE 8 kW (Item no. 6100 1032)

Sense Sport

Sense Sport delivers reliable and precise heat every time you take a relaxing sauna. The heater incorporates our energy-saving "divided output" feature and an integrated time and temperature control knob on its front. Choose an output of 6.6 kW or 8 kW and either a wall-mounted or floor-standing heater (legs are optional).

Sense Sport 6 kW (Item no. 6100 1018)
Sense Sport 8 kW (Item no. 6100 1012)

Sense SK

Sense SK is designed for installation with a separate control panel. In other respects, the heater has the same features and design as Sense Sport.

Choice of TS16 and TS30 control panel.
Sense SK 6 kW (Item no. 6100 1025)
Sense SK 8 kW (Item no. 6100 1027)

Sauna accessories Blonde & Dark

Blonde and Dark are two series of aluminium accessories with elegant light and dark wood details. The sauna accessory series include a ladle, bucket, towel rack, liquid thermometer, hourglass, thermometer, hygrometer and thermo/hygrometer.

CC10

Electronic control panel for 6 kW and 8 kW heaters. Simple to operate. A numerical LED display shows the time and temperature. 3-10 hours running time, 0-10 hour preset.

H1

Tylö's stylish h1 control panel makes it easy to adjust the sauna or steam bath. The electronic control panel with touch-control displays the temperature and running time and can be programmed to start up to 24 hours in advance.
